

FINIALS

Help your customers turn their home into their castle with our copper and stained glass finials. These finials make a fine complement to any of our cupolas, or add the finishing touch to a turret or rooftop. Finials can also be used in the yard or garden as a topiary or decorative sculpture. Our finials come in a polished finish and include a powder coated steel rod for versatile installation.

See pages 19-21 for mounting and display options.

Using the same proprietary Blue Verde and Chestnut patinas found on our weathervanes, these new patinas look just as stunning on our finials. Hand-rubbed, these patinas create a richly detailed color and luster found on no other finial in the marketplace today. Pure copper and brass are transformed into a multi-toned blue-green or a lightly hued chestnut brown patina.

In addition, we have created even larger sized versions of our most popular styles with some over 7 feet tall! All Good Directions Finials are made of copper and brass so they will withstand the elements of nature. They make a fine complement to any of our cupolas or add the finishing touch to a turret or rooftop. Finials can also be used in the yard or garden as topiary or decorative sculpture. Each Good Directions Finial comes with a powder coated solid steel rod for versatile installation.
